

Online Clinical Plans

Mapping ATI's screen-based learning solutions

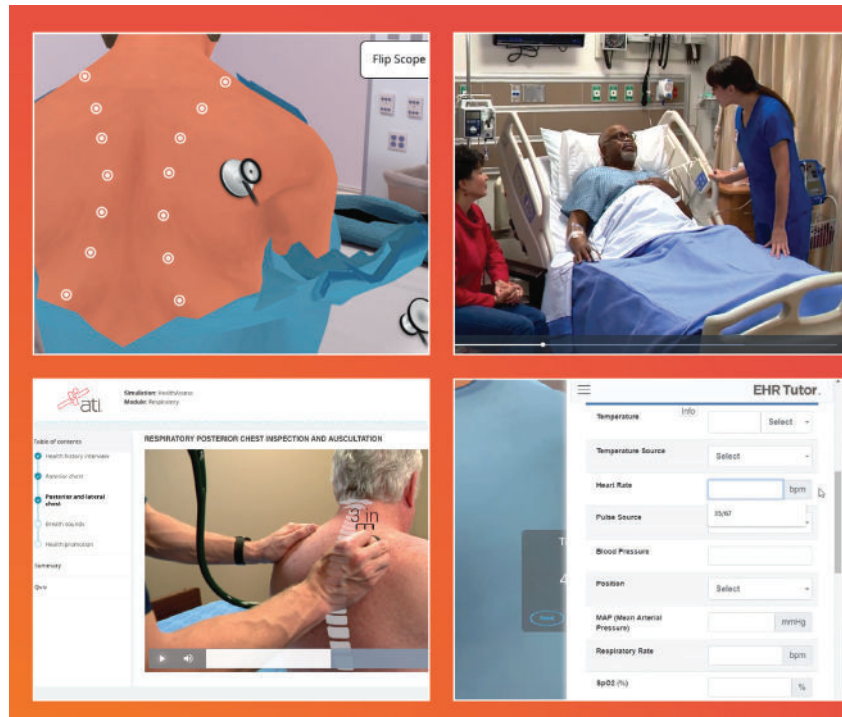

Online Clinical Plans from ATI provide students with hours of virtual clinical experience across six RN and four PN content areas. Each plan guides educators through a series of ATI modules and supplemental clinical judgment activities, including pre-briefing and debriefing questions appropriate for three levels of student competence.

MAKE UP LOST CLINICAL TIME with plans that total more than 325 RN hours and more than 230 PN hours of screen-based clinical learning and practice opportunities.

EASILY ALIGN ACTIVITIES to your clinical course as each plan maps to common clinical competencies, outcomes, and objectives.

APPROPRIATELY CHALLENGE STUDENTS at their knowledge and experience levels with plans designed specifically for three stages of student competence: Novice, Advanced Beginner, and Competent.

LEAD STUDENTS WITH CONFIDENCE knowing these plans have been thoroughly vetted, strategically designed, and follow simulation guidelines and competencies from INACSL, NCSBN, and QSEN.

6 RN TOPIC AREAS

Fundamentals

5 Modules / 64 Hours

Adult Med-Surg 1

5 Modules / 55 Hours

Adult Med-Surg 2

5 Modules / 55+ Hours

Community Health

6 Modules / 69+ Hours

Maternal Newborn

6 Modules / 38+ Hours

Nursing Care of Children

6 Modules / 43 Hours

4 PN TOPIC AREAS

Fundamentals

5 Modules / 63 Hours

Med-Surg 1

5 Modules / 49+ Hours

Med-Surg 2

5 Modules / 51+ Hours

Community Health

6 Modules / 69 Hours

GETTING STARTED

Students and educators can get started quickly with:

- Quick faculty and student orientation videos.
- An RN and a PN Educator Implementation Guide designed to align any Online Clinical Plan topic area and competency level to your course.

EACH TOPIC AREA INCLUDES

1. A three-phase INACSL Standards approach:
 - Phase I: Preparation and prebriefing
 - Phase II: Clinical scenario/situation
 - Phase III: Debriefing and evaluation
2. Faculty Lesson Plans for each RN and PN topic area, complete with all student assignments, prewritten questions, and clearly identified clinical outcomes.
3. An easy-to-follow student checklist.

ATI SOLUTIONS THAT SUPPORT VIRTUAL CLINICAL SIMULATION

Throughout each plan, you'll find modules and activities from the following ATI screen-based solutions.

- | | |
|---|-------------------------------|
| + Active Learning Templates | + Engage Fundamentals 2.0 |
| + Civility Mentor | + Engage Mental Health |
| + Content Mastery Series | + HealthAssess 3.0 |
| + Dosage Calculation & Safe Medication Administration 3.0 | + Learning System 3.0 |
| + EHR Tutor | + Nurse's Touch Suite |
| + Engage Adult Medical-Surgical | + Real Life 4.0 |
| + Engage Community & Public Health | + Skills Modules 3.0 |
| | + Swift River Simulations 2.0 |
| | + Video Case Studies 3.0 |
